

Agromehanika

SINCE 1968

AGS mounted sprayers

200-600 E

6m, 8m, 10m, 12m, 15m

Quality spraying with great savings

AGS 200 - 600 E sprayers were designed for spraying small areas of agricultural land. Due to their light design they are also suitable for small tractors. These sprayers are not fitted with a rinsing tank. They consist of high-quality components resistant to aggressive chemical agents. Cost-effective and efficient spraying is guaranteed.
